PUBLIC UTILITIES COMMISSION

505 VAN NESS AVENUE
SAN FRANCISCO, CA 94102-3298

**PUBLIC UTILITIES COMMISSION REPORT PURSUANT TO
PUBLIC UTILITIES CODE SECTION 910.1****Introduction**

As the state's primary regulator of investor-owned electric, gas, water, transportation and telecommunication services, the California Public Utilities Commission (Commission) is responsible for the development of effective regulatory constructs to ensure that these services are delivered safely, affordably, reliably, and environmentally responsibly. The Commission carries out this important task through the management of public decision-making processes, known as proceedings, that solicit the expertise, perspectives, and input from stakeholder groups representing a wide range of interests and views. These proceedings ultimately lead to the creation, modification, or improvement of new and existing rules that are designed to achieve public interest objectives for the utility services overseen by the Commission.

Public Utilities Code Section 910.1 requires the Commission to report annually on the status of its proceedings, specifically, on timeliness in resolving cases, information on the disposition of applications for rehearing, and the number of days that Commissioners presided in hearings. The Commission submits this report for the reporting period of calendar year 2021, in which Commission responded to the ongoing disruptions for utility customers, regulated utilities, and operations of the Commission created by the COVID-19 pandemic.

In addition, Public Utilities Code Section 1701.1 et seq. requires that regulatory matters before the Commission be resolved within certain time periods, depending on the categorization of a proceeding. Prior to January 1, 2017, Public Utilities Code Sections 1701.1 et seq., notably the requirement for scoping memos and the statutory deadlines, did not apply to proceedings that were not subject to evidentiary hearing. However, Senate Bill 215 (Leno, Stats. 2016, ch. 807), amended Sections 1701.1 et seq. to extend their provisions to all proceedings regardless of whether they are subject to evidentiary hearing.

There are four types of proceeding categories: adjudicatory, ratesetting, quasi-legislative and catastrophic wildfire. Adjudicatory proceedings investigate and adjudicate possible violations of state or Commission rules and must be resolved within 12 months. Ratesetting proceedings set or investigate rates that regulated entities charge customers; quasi-legislative proceedings establish policies or rules affecting regulated entities. Both ratesetting and quasi-legislative proceedings must be resolved within 18 months, unless a longer deadline is set by the assigned Commissioner's scoping memo or a Commission order extending the statutory time period. Finally, in catastrophic wildfire proceedings, a proposed decision must be issued within 12 months.

All of the Commission's proceedings are comprehensive, stakeholder informed decision-making processes that focus on producing the most desirable regulatory solutions to some of the state's most critical electric, gas, telecommunications, water, and transportation utility issues. The Commission also hears individual customers' complaints against a utility. A proceeding will be closed when key matters have been decided or considered fully resolved. At times, proceedings that have had all substantive issues decided may remain open or be reopened because of stakeholder objections. These objections may take the form of applications for rehearing, petitions for modification, and various motions. Commission proceedings can be complex and require the consideration of all perspectives provided by stakeholders throughout the proceeding. Before reaching a decision on regulatory and policy matters, Administrative Law Judges and Commissioners carefully review and consider the contributions of stakeholders, including formal testimony, comments, and reply comments to the Rulings and Proposed Decisions in a proceeding, keeping in mind the importance of resolving issues in a timely manner. Stakeholders to proceedings, who typically become parties to the proceeding, include the regulated investor-owned utilities, industry trade associations, consumer advocacy groups, non-profit organizations, local governments, and other interested participants. Participation in proceedings by these organizations is critical to ensure that the decisions made are well-informed and provide balanced solutions to the complex regulatory issues before the Commission.

As described in this report, all proceedings resolved by the Commission in 2021 that were subject to statutory deadlines were completed consistent with statutory timeframes, either due to resolution within the statutory deadlines, or because a scoping memo establishing a longer deadline, or a timely extension order, was issued as permitted by law. This report provides details regarding whether proceedings were resolved in a timely manner with or without extension orders. More detailed information is contained in the attached Appendices A-J. Appendix K reports the days that Commissioners presided in hearings, and Appendix L reports information on the disposition of applications for rehearing.

Lastly, in an effort to improve its decision-making processes, the Commission continuously assesses and reassesses its management of proceedings. Improvements are focused on ensuring that these proceedings are accessible to interested stakeholders, preserve their due process rights as parties and ultimately lead to a resolution of matters in a reasonable timeframe. As the Commission continues to develop refinements to decision-making processes that balance timeliness with thoughtful public participation and effective record development, the Commission is always open to hearing the innovative ideas of the public, stakeholders, and the Legislature.

Description of Attached Appendices A-L

Appendix A – Proceedings Initiated Before January 1, 2017, not Subject to Evidentiary Hearings, Active During 2021 (Resolved and not Resolved)

Appendix A lists 17 proceedings active during 2021 that were initiated prior to January 1, 2017, and not subject to evidentiary hearings. Of the 17 proceedings, 11 were resolved during 2021. The remaining 6 proceedings are currently active and on schedule.

Appendix B – Complaints Under the Expedited Complaint Procedure, Active During 2021

Appendix B lists 33 Expedited Complaint Proceedings (ECP) that are small complaint cases handled under special procedures analogous to “small claims” court. These proceedings are not subject to statutory deadlines. We are reporting these matters separately because the Commission has adopted more aggressive

timelines for these cases than the statutory timelines for other proceedings. The Commission has established an informal 132-day target for this type of proceeding to be resolved.

During 2021, 22 of these 33 proceedings were resolved. Eleven proceedings remain active.

Appendix C – Proceedings Active During 2021 – Proceedings Resolved on Schedule

During 2021, the Commission timely resolved 165 proceedings (18 adjudicatory, 128 ratesetting, 3 quasi-legislative; and 16 proceedings resolved rehearing-related issues that were not categorized).

Appendix D – Proceedings Active During 2021 – Proceedings not Resolved but Still on Schedule

During 2021, there were 4 active, unresolved proceedings that were initiated prior to January 1, 2017, and subject to evidentiary hearings, and 233 active, unresolved proceedings that were initiated after January 1, 2017. Of the 237 proceedings, 20 are adjudicatory, 31 are quasi-legislative, 1 is adjudicatory for one part and quasi-legislative for another part of a proceeding, and 181 are ratesetting. All of these proceedings are currently on schedule, taking into account statutory deadlines, orders extending statutory timeframes, and scoping memos establishing deadlines that in some instances exceed basic statutory timeframes. Four proceedings are addressing rehearing-related issues and categorization will be addressed as necessary if the Commission subsequently grants rehearing.

Appendix E – Petitions for Valuation of Utility Property

Petitions for Valuation of Utility Property are statutorily mandated proceedings subject to the deadlines in Public Utilities Code Sections 1401-1421. Appendix E shows that one such proceeding was active during 2021 and currently on schedule.

Appendix F – Petitions for Rulemaking

Petitions for Rulemaking are statutorily mandated proceedings subject to the deadlines in Public Utilities Code Section 1708.5. The Commission is mandated to issue a decision in this type of proceeding within six months. Appendix F shows that one such proceeding was active during 2021 and currently on schedule.

Appendix G – Citation Appeals and General Order 156 Appeals

The Commission in Resolution ALJ-377 established the Citation Appeal and General Order 156 Appeal process (April 28, 2020) based on the pilot program established by ALJ-299 (June 26, 2014). Under ALJ-377, appellate records are easily accessible, thus enhancing due process in these expeditious proceedings. Appendix G shows that 35 such appeals were active during 2021 and that the Commission has issued 19 resolutions addressing the appeals. Sixteen appeals are active.

Appendix H – 60-90 Day Period for Adoption of Decision

The Legislature has also established guidelines for the length of time between the issuance of a proposed decision and the adoption of a final decision by the Commission, applicable to all ratesetting proceedings and to quasi-legislative proceedings requiring a hearing. The guidelines are either 60 or 90 days depending on certain circumstances.

During 2021, the Commission considered 163 proposed decisions in proceedings subject to these guidelines. The Commission adopted 148 final decisions in such proceedings and the final decisions were adopted within the guidelines. Seven proposed decisions were withdrawn, either because the alternate proposed decision was voted or because there was procedural need to revisit the proposed decision. One proposed decision was suspended before appearing on an Agenda. Seven proposed decisions are pending resolution.

Appendix I – Issuance of Presiding Officer Decisions and Proposed Decisions

The Legislature has also established guidelines for the length of time between the submission of a matter for decision and the issuance of the proposed decision. During 2021, the Commission issued 12 presiding officer decisions and 157 proposed decisions in such proceedings. Out of these 169 decisions, 106 were issued within the 60-day and 90-day timelines.

Appendix J – Issuance of Extension Orders and Scoping Memos

The Legislature has also established a process for extending the statutory deadlines through issuance of an extension order. During 2021, the Commission issued 72 extension orders in 59 separate proceedings (more than one extension order was issued in some proceedings), including proceedings which remained open at the end of 2021. Of the 218 proceedings resolved in 2021, 218 proceedings were subject to statutory deadlines and there were 59 proceedings where extension orders were issued.

The assigned Commissioners issued 174 scoping memos (including amended scoping memos) in 159 proceedings.

Appendix K – Commissioner Attendance

Appendix K reports Commissioners' attendance at hearings during the period. The table shows that Commissioners attended 83 days of hearings and presided during 2 of those 83 days.

Appendix L – Information on Disposition of Applications for Rehearing

Appendix L reports information on the disposition of applications for rehearing in 2021.

Conclusion

In summary, this report, submitted in compliance with Public Utilities Code Section 910.1, provides the public and the Legislature information on Commission action in formal proceedings. Specifically, 489 proceedings were active at the Commission during the 2021 reporting period. During 2021, 218 of these proceedings were resolved. One hundred per cent of the proceedings subject to statutory deadlines were resolved consistent with statutory requirements, taking into account scoping memos, which in some instances set deadlines longer than basic statutory timeframes, and orders extending the statutory timeframes adopted by the Commission, as permitted by statute. The Commission is committed to continuing to achieve full compliance with the statutory guidelines.

Summary Table
Timeliness of Proceedings Resolved during 2021

	Resolved Timely with no Extension Orders	Resolved With Extension Orders	Resolved Late	Currently Active	Total
Initiated pre-January 1, 2017, and not Subject to Hearing (Appendix A)	0	11 ¹	0	6	17
ECPs (Appendix B)	21	1	0	11	33
Resolved on Schedule (Appendix C)	137	28	0	0	165
Currently Active (Appendix D)	0	0	0	237	237
Petitions for Valuation of Utility Property (Appendix E)	0	0	0	1	1
Petitions to Adopt, Amend, or Repeal a Regulation (Appendix F)	0	0	0	1	1
Citation Appeals and General Order 156 Appeals (Appendix G)	19	0	0	16	35
Total	177	40	0	272	489

¹ In all 11 of these proceedings, a scoping memo issued determining that evidentiary hearings were not needed; extension orders were issued although not required by statute.

* This is an Application for Rehearing of a Resolution dealing with an informal advice letter. This application for rehearing is assigned a formal application number and is assigned to Legal Division for a determination of whether the Commission's resolution contains legal error. If the Commission subsequently grants rehearing of the resolution, the Commission will undertake a proceeding in this application and will address the categorization as necessary at that time.

*This is an Application for Rehearing of a Resolution dealing with an informal advice letter. This application for rehearing is assigned a formal application number and is assigned to Legal Division for a determination of whether the Commission's resolution contains legal error. If the Commission subsequently grants rehearing of the resolution, the Commission will undertake a proceeding in this application and will address the categorization as necessary at that time.

**The Presiding Officer's Decision was timely issued on October 6, 2021, but it was appealed on November 4, 2021.
